Education

NSBM Green University

BSc (Honours) in Computer Science

Homagama, Sri Lanka

2023 - present

Ananda Sastralaya

Bio Science Technology

Mathugama , Sri Lanka

2019 - 2021

Summary

Motivated and detail-oriented third-year undergraduate at NSBM Green University with a strong interest in Software Quality Assurance. Passionate about ensuring software quality through manual testing, identifying defects, and delivering reliable applications. Possess a foundation in software development and web technologies, with strong analytical and problem-solving skills. Eager to learn industry-standard QA tools and contribute as a QA Intern while continuously developing technical and professional skills.

Experience

Personal Portfolio A modern and responsive personal portfolio website developed using Next.js, TypeScript, and Tailwind CSS to showcase my projects, technical skills, and educational background. It features a clean user interface, smooth animations, and reusable components to provide an engaging user experience.

Service booking site(ServiGo)

Developed the frontend and backend of a service booking platform using React, Java, and Spring Boot. Implemented user authentication, service management, booking workflows, and database connectivity to provide a seamless user experience. Collaborated with team members using Git and GitHub while following software development best practices.

Vehicle rent service app (RentRide)

This project is a responsive sidebar navigation system built using Flutter (Dart). It provides a collapsible side menu for easy navigation between different sections of an application. The sidebar adapts to both mobile and desktop screens, offering a smooth and user-friendly interface with icons, labels, and animations for transitions.
