SUMMARY

Detail-oriented Computer Science undergraduate (BSc Hons, NSBM Green University) with hands-on project experience in manual and automated software testing, including functional, regression, and exploratory testing on web applications. Familiar with test case design, defect reporting, API testing (Postman), and version control (Git/GitHub). Strong analytical mindset, fast learner, and comfortable working with documentation-heavy, process-driven tasks. Seeking an entry-level opportunity in Quality Assurance, Operations, or Support where accuracy, structured thinking, and a willingness to learn add immediate value.

SKILLS

QA & Testing: Manual Testing, Test Case Design & Execution, Functional Testing, Regression Testing, Exploratory Testing, Bug/Defect Reporting, Page Object Model (POM), API Testing (Postman)

Test Automation Tools: Selenium WebDriver, Playwright, TestNG, Maven

Technical: Java, JavaScript, React, Spring Boot, Git & GitHub, Basic SQL/Database Concepts

Workplace & Ops: MS Office (Word, Excel, PowerPoint), Documentation, Attention to Detail, Analytical & Problem-Solving, Communication & Teamwork, Time Management

EDUCATION

BSc (Hons) in Computer Science

NSBM Green University — Homagama, Sri Lanka

PROJECTS

Personal Portfolio

- Designed and built a personal portfolio website to showcase projects, skills, and background.

chanudi-mallikaarachchi.vercel.app

OpenCart Automation Testing

- Engineered an end-to-end (E2E) test automation framework using Playwright and JavaScript for an OpenCart e-commerce platform, following the Page Object Model (POM) architecture.

github.com/ChanudiMallikaArachchi/Automation_testing_OpenCart

OrangeHRM Automation Testing

- Developed a robust, scalable end-to-end test automation framework using Playwright and JavaScript to automate core HR workflows on the OrangeHRM enterprise platform.

github.com/ChanudiMallikaArachchi/Automation_testing_OrangeHRM

SauceDemo Automation Testing

- Developed an automated UI testing project for the SauceDemo e-commerce application using Java, Selenium WebDriver, TestNG, and Maven.
- Implemented the Page Object Model (POM) to automate user login, product selection, add-to-cart functionality, and cart navigation.

github.com/ChanudiMallikaArachchi/saucedemo-automation-java

Automation Testing — Product Store

- Developed an end-to-end UI automation test framework using Playwright (JavaScript) and the Page Object Model (POM).
- Automated user registration, login, product filtering based on price conditions, product selection, and add-to-cart validation using Playwright assertions.
